

# TrendStats

[nces.ed.gov/dataLab](https://nces.ed.gov/dataLab)

## Percentage Distribution

Generates percentage of population in each category of a variable, displays in columns.

## Averages, Medians, and Percents

Computes any of three statistics (averages, medians, or percentages) for your selected variables, displayed in columns.

## Custom Tables

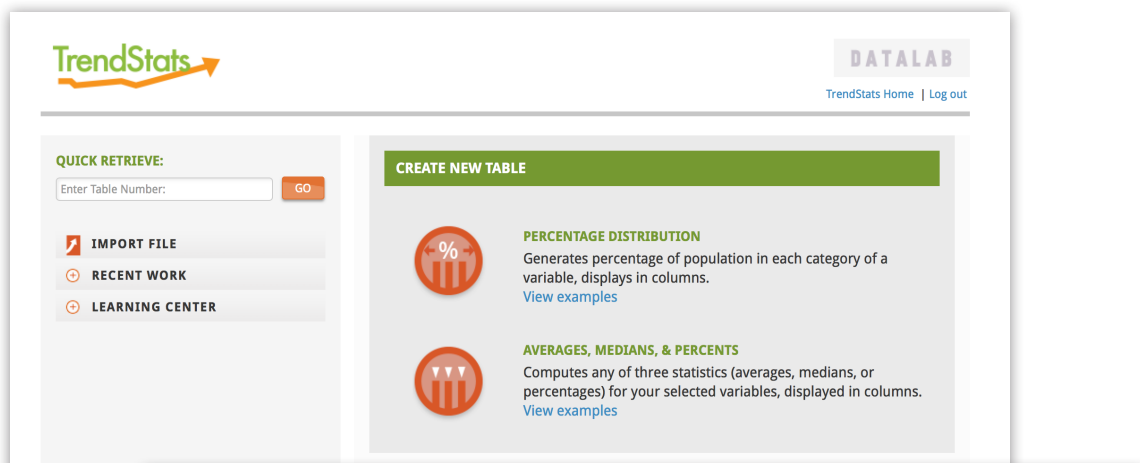

TrendStats allows users to create custom trends tables. Tables with dollar variables can be adjusted for inflation.

## Available Datasets:

National Postsecondary Student Aid Study, Undergraduate and Graduate Students

## Available Years:

- 1995-96
- 1999-2000
- 2003-04
- 2007-08
- 2011-12

Associate degree type by Amount still owed on all undergraduate loans and Amount still owed on all undergraduate loans for years 2004, 2008 and 2012

	Associate degree type			
	AA, AS, general education or transfer	AAS, occupational or technical program	Not working on an associate's degree	Total
<b>Estimates</b>				
<b>Total</b>				
2004	24.5	12.0	63.5	100%
2008	27.3	13.4	59.3	100%
2012	27.4	14.9	57.7	100%

## Use TrendStats to answer...

How have enrollment patterns in STEM related fields changed since 1996?

Has the net cost of college attendance changed over the last 12 years?

What are borrowing patterns among graduate students?

What are enrollment patterns among undergraduate students by institution type?

Have financial aid packages changed over time?
